

COMPANY PROFILE

RC. 1199883

FROM THE CEO'S DESK

ALPHA ZILLION LTD is a 100% Nigerian company registered as a Limited Liability Company (RC.1199883), with an initial 1,000,000 ordinary shares of N1.00 per share. Alpha Zillion Ltd is primarily Engineering, Procurement, Construction and Installation (EPCI) company. Our Services include ***Engineering, Procurement, Construction, Material Inspection & testing, Renewable Energy development and Training Services***. The board of Directors, Management and staff of our prestigious organization, are also pleased to show-case to you, the company's vision, mission, products, operations and services.

Within the over six years of corporate existence, we have successfully executed several Engineering, Procurement and Construction projects both in the oil and gas industry and other fields of Engineering operations. This can be attributed to the fact that the company possesses a functional man power base, drawn from various disciplines with record long term experiences, some of whom are the founding members of staff of the company. Our successes can also be attributed to such factors as capable and committed workforce, integrity, strong determination, hard work, quality products and services, finesse in customer care and excellent public relations. Also, our partnership with reputable foreign firms operating in our areas of specialty, have become one great source of our strength. It is on this premise of our corporate achievements that we become confident that we can always deliver best and timely products and services to our clients.

ALPHA ZILLION LTD corporate clients have demonstrated their confidence in us by continually patronizing our products and services and we believe your organization will do same when we finally come to common grounds. We look forward to establishing a fruitful and cordial business tie with you.

Yours truly,

Engr. Usen Ekong (MNSE, COREN)
MD/ CEO
ALPHA ZILLION LTD

OUR MISSION

To provide affordable Engineering, Procurement and Construction solutions to clients, with excellence, quality and safety as our guiding principles

OUR VISION

To be at the fore front in the provision of Engineering, Procurement and Construction services both locally and globally by engaging competent man power and leading-edge technologies.

OUR VALUES:**Ethics:**

We are committed to carrying out business professionally, holding integrity to the highest ethical standards and in compliance with all applicable regulatory frame work governing our areas of operations both locally and internationally.

Technology:

Technological development is a key element in today's business world. As such we strive to introduce new technical ideas, and develop them to suite emerging needs. Such ideas are used in providing solutions. The company also believes in technology transfer and does so by encouraging on-the-job, in-house as well as structured technical training for company staff.

Employees:

The quality of staff in an organization determines to great extent the output of the organization. For this reason, we maintain an employment standard that develop a, skilled, creative, and empowered workforce to drive indigenous manpower base.

Public/Customer Relations:

We recognize that, the society harbors the clients whose interest we seek to satisfy. Our company is quite deliberate about establishing cordial and healthy business practice in our areas of operations at all times. This we ensure by implementing our corporate public relations/customer service policies in line with acceptable standards.

Community Relations:

We relate and behave responsibly with the host community and conduct our business activities with sense of commitment and development. To be a progressive and supportive business associate to the needs and expectations of our operating environment, pursuing our corporate social responsibilities in business with passion to serve humanity.

Health, Safety and Environment Management System: We seek to maintain high safety standards in all our areas of operations. We also run our operations in line with OSHA 18001 requirements as applicable and also in line with clients' peculiar safety needs.

Quality Management System: Our Quality Management System has been developed in compliance with ISO 9001: 2015. This management system covers all facets of our operations and provides guidelines on the management of our areas of specialty and associated services, from the receipt of the initial order to delivery of the finished products or performance of services

Nigerian Content Development:

ALPHA ZILLION LTD is wholly indigenous company and is fully committed to comply with the Federal Government of Nigeria local content development act.

Our commitment to Nigerian Local Content Development Act is evidenced in the following:

- Provision of committed infrastructure in Nigeria.
- Training of Nigerian Personnel to meet ALPHA ZILLION nigerianization timeline.

We believe that in training the Nigerian personnel, we shall achieve human capacity building, and also bridge the technical-know -how gap that seems to exist between local employees and foreign expatriates.

OUR SERVICES

- ***Engineering Design/ Consultancy Services***
- ***Construction Services***
- ***Procurement***
- ***Oil & Gas Services***
- ***Structural and pipe Fabrication Services***
- ***Insulation Services***
- ***Corrosion control***
- ***Integrity Management Services***
- ***Material Inspection & testing***
- ***Lifting Operations and Services***
- ***Maintenance Services***
- ***Electrical & Instrumentation Services***
- ***Renewable energy development***
- ***Training***

Engineering Design

- Customer Requirement Review
- Feasibility Studies
- Design Conceptualization
- Model/Prototype design
- Design Verification
- Design Validation
- Design Review
- Implementation and commissioning

Construction

- Pipeline / Flowline construction, replacement and repair.
- Construction of Structural Steel products
- Scaffolding

Gas pipeline Construction Project - Accugas

Pipe welding Project – Seven Energy

Repair / Sectional replacement of flowlines - SPDC

Oil & Gas/ Marine Services

- Mooring services
- Ballasting.
- Load-out services
- Marine transportation

Fabrication

- Structural welding
- Pipe welding
- Flow line construction, replacement and repairs
- Fabrication of storage tanks
- Fabrication of oilfield facilities, modules and platforms
- Application of different welding processes:
 - SMAW, GTAW, GMAW, FCAW, OFW, SAW

GTAW Qualification test at Alpha Zillion

SMAW Qualification test at Alpha Zillion

Materials/ Piping Insulation

- Cold Insulation
- Hot Insulation
- Hot Apparatus Insulation
- Personnel Protection Insulation

Corrosion Control:

- Environmental analysis
- Geophysical & Geotechnical Survey
- Surface preparation, coating/painting
- Cathodic protection – Sacrificial anode & Impressed Current methods
- Fabric Maintenance
- Soil resistivity test

Material Inspection & Testing

- Non-Destructive Testing (NDT) of Materials using techniques such as:
 - VT, PT, MPI, RT, UT & ET
- Advanced NDT such as
 - Phased Array Ultrasonic Testing (PAUT)
 - Shear Wave Ultrasonic Test SWUT
 - Guided Wave Ultrasonic Test GWUT
 - Long Range Ultrasonic Test LRUT
 - Tube Bundle Test
- Lifting equipment inspection- Cranes, Containers, carrier baskets, lifting gears
- Welding Inspection
- Pneumatic and Hydrostatic Testing of Pipes, Spools and Tanks
- Valve inspection- Control valves, choke valves, Ball valves etc.
- Pressure vessels inspection – Oil tanks, vessels, pipes

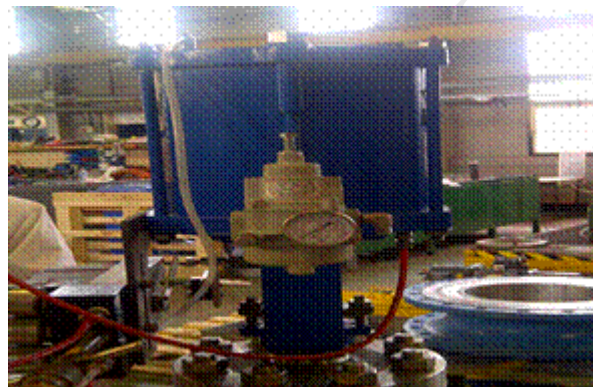

Valve Inspection Service

Lifting Operations and Services

- Heavy lifting, Heavy transportation and Jacking Services
- Heavy weighing and determination of CoG of offshore facilities and modules
- Load-out, mooring and Ballasting

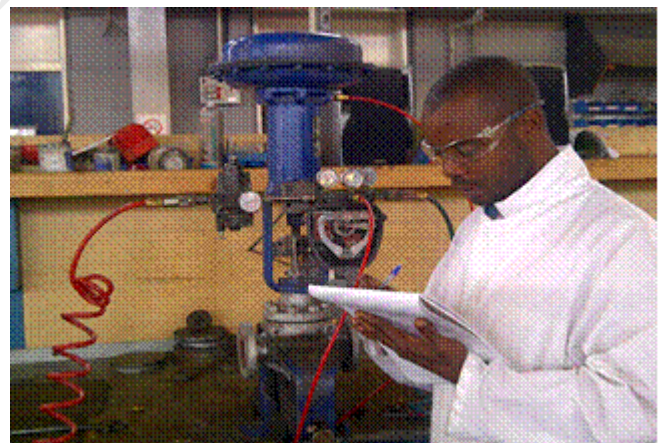

Maintenance Services

- Crane maintenance
- Facility maintenance
- Valve maintenance services

Calibration and Re-Certification of Equipment

- Calibration of flow meters and pressure gauges
- Valve calibration
- Re-certification of cranes, forklifts, jacks – Lifting equipment

Calibration of Control Valves

Electrical & Instrumentation Services

- Supply and installation of electrical and instrument panels
- Supply and installation of electrical wires and fittings
- Supply and installation of control valves, ball valves, butterfly valves, check valves
- Supply and installation of limit switch
- Supply and installation of Public Address System & CCTV and cable laying

- Supply and installation of cable trays
- Supply and Installation of Position Feedback Transmitters
- Supply and Installation of Speed sensor
- Supply and Installation of level gauges and pressure gauges

Training

- Welding training – Structural and pipe welding
- Scaffolding
- Electrical and instrumentation training
- Material Inspection training
- Quality Management System QMS training

Renewable Energy Development

- Development of solar drying systems – For agricultural products
- Training of farmers on Operation and maintenance of solar drying systems

Installation of Tunnel Solar Dryer

Drying of Yam chips, Plantain Chips and Pepper

Dried and Packaged Mango Chips and Cassava Chip

EXPERIENCE

Client: Thompson & Grace Investment Ltd
Project: Fabrication of Steel Structures For
Construction Of T&G Equipment bay-2014

Client: Lovotex Resources Ltd
Project: Fabrication of Pipe Spools for
Hydrant Flushing - 2015

Client: Thompson & Grace Invests. Ltd
Project: Fabrication of 43ft Cargo
Basket - 2013

Client: Domanlong Engineering Ltd/Exxonmobil
Project: Fabrication of Riser clamps-an OCIP2 Project-2014

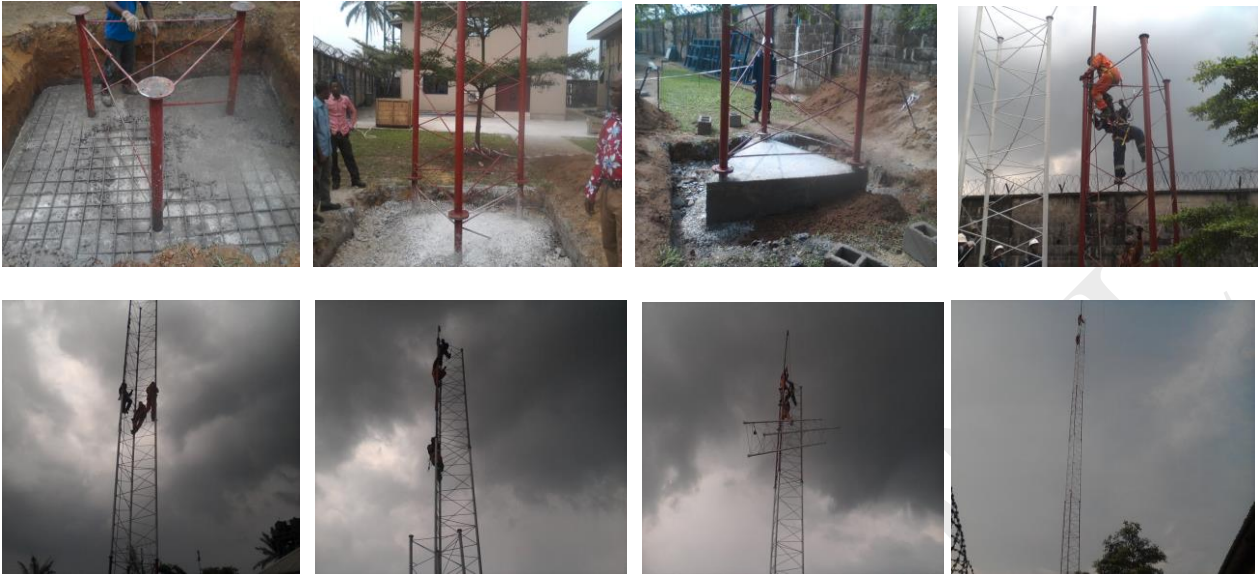

Client: WAV/Chevron Nig Ltd
Project: Provision of Mooring Services on Jascon 38
for Meji LQ Load-in at Intels Jetty, Onne 2014

Client: Thompson & Grace Investment Ltd
Project: Excavation and Laying of 230m, 120mm² 4 C
Armored Electrical Cable to Training School -2015

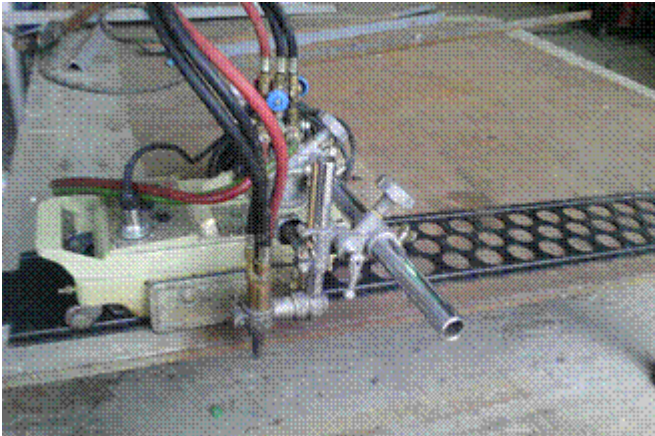

Client: Kudzy Konzult Ltd
Project: Design, Construction and Installation of
150ft Communication Mast – 2015

EQUIPMENT

- **Welding and Fabrication Equipment**
- **Blasting and Coating Equipment**
- **NDT / inspection Equipment**
- **Lifting and Heavy weighing equipment**
- **Load-out Equipment**
- **Mooring and Ballasting Equipment**

Cutting machine

Electrical welding machine

Diesel Welding machine

Electrode Oven

Electrode Quiver

Blasting Equipment

Plate Blasting

Spray Painting

Airless Spraying Machine

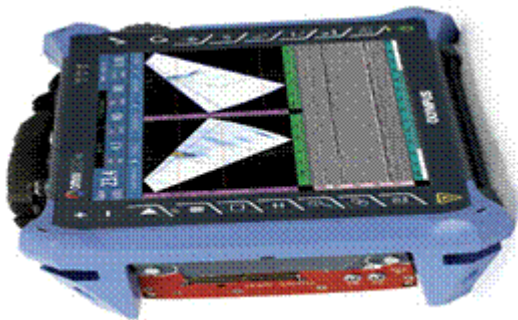

Jigs

Coating Inspection Equipment

Welding Inspection Kit

Ultrasonic Test Equipment

AC Yokes

NDT Equipment

PERSONNEL

- **Mechanical Engineers**
- **Electrical/Instrumentation Engineers**
- **Civil Engineers**
- **HSE Professionals**
- **QAQC Managers**
- **Quantity surveyors**
- **Coating Inspectors**
- **Welding Inspectors**
- **Lifting Equipment Inspectors**
- **NDT Inspectors**
- **Welders / Fitters**
- **Blasters / Painters**
- **Lifting Equipment Operators**
- **Riggers**
- **Scaffolders**
